SESSION PLAN: OCEAN INTRO

SESSION OBJECTIVES:

The teacher / facilitator to gain insight into the learners current understanding of the oceans and its place in their lives.

INTRODUCTION ACTIVITY:

- Ask the learners, "Who has been to the seaside, beach or the ocean before?"
- Ask the learners about their visit to the beach/sea/ocean – allow them to share their first experience of the ocean/beach. If they have not been to the beach or ocean, ask them what they think of when people mention the ocean.
- Ask them if they know the name of their local beach and who has been there.

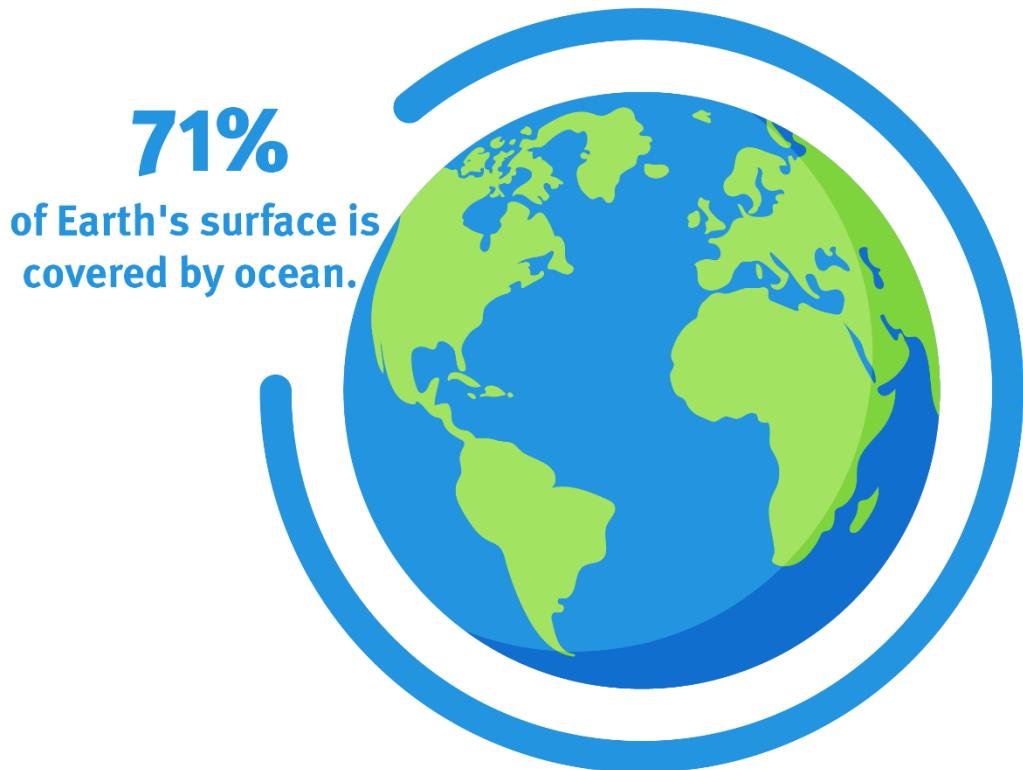

MAIN ACTIVITY:

- Give each learner a blank piece of paper and crayons – ask them to draw what they think of, when they think of the ocean/sea/beach – let them know this is not a competition but rather an opportunity to express how they interpret the ocean.
- Allow some learners to explain to the class what they have drawn.

(It's important that at this point, you (the teacher/facilitator) do not tell them all about the ocean and how important it is, etc, but rather allow the learners to share with you what they already know.)

CLOSING EXERCISE:

- Demonstrate how the earth is 71% Ocean.

FOLLOW UP SUGGESTIONS:

- Show the learners the *Our Oceans: A Journey of Discovery* Feature Film (90 minutes) Video
